The School Garden

Last term our school started a garden behind the school hall. Every class has two small beds. The pupils plant seeds in September and water the plants every morning before the first lesson.

In December the tomatoes were ready. Each class picked the tomatoes from its own beds and wrote the number on a card. Class 2A picked 36 tomatoes. Class 2B picked 28 tomatoes. Class 2C picked 41 tomatoes. Class 2D picked 35 tomatoes. The table below shows the number each class picked.

Class 2C picked the most tomatoes and Class 2B picked the fewest. Miss Wong, the science teacher, said, "The number is not the important thing. You looked after the plants every day, and that is what made them grow."

All the tomatoes were given to the school canteen. Next term the classes will plant beans in the same beds.
