I stayed at home _____ I was ill.

答案 : because

It was raining, _____ we took an umbrella.

答案 : so

_____ he is only ten, he plays the piano very well.

答案 : Although

She wanted to join the trip, _____ her parents said no.

答案 : but

You can take the bus _____ the train to the airport.

答案 : or

Section B — Reading Comprehension (40 marks)

Less Waste, More Care — a report by the Green Team

Last month the Green Team, a group of twelve pupils at Sunny Bay Primary School, surveyed the rubbish in the tuck shop area. Every afternoon for one week, two members weighed the waste from the bins and wrote the numbers on a chart.

The results surprised everyone. The table below shows how many kilograms of waste the school threw away each day.

Mr Lau, the teacher in charge, said, "We buy too much and we throw away too much. A paper box, a plastic fork or half a sandwich — it all goes into the same bin."

The team decided to act. They put labels on the bins: one for paper, one for plastic bottles and one for general waste. They also made posters. On the posters they drew a sea turtle and wrote, "This bag can stay in the sea for 400 years. Can you?" Pupils began to talk about the posters in the playground.

In the second week the team weighed the waste again. The school threw away 90 kilograms, about one quarter less than before. The biggest change was the number of plastic bottles: it fell from 210 to 96 in one week.

The Green Team now checks the bins every Friday. "We are not asking for a perfect school," said Amy Chan, the team leader. "We are asking everyone to think for one second before throwing something away."

Waste from the tuck shop area (kilograms)

Day	Monday	Tuesday	Wednesday	Thursday	Friday
Kilograms	18	24	21	27	30

B1. Are the sentences true or false? If a sentence is false, write the correct information. (12 marks)

The Green Team weighed the waste every afternoon for one week.

答案 : True.

The school threw away 100 kilograms of waste in the first week.

答案 : False. It threw away 120 kilograms.

In the second week the amount of waste was about one quarter less than in the first week.

答案 : True. It fell from 120 kilograms to 90 kilograms, which is 25 per cent less.

The number of plastic bottles fell from 210 to 96 in one week.

答案 : True.

B2. Answer the questions in complete sentences. (16 marks)

How many kilograms of waste were collected on Wednesday?

答案 : 21 kilograms.

What was the average amount of waste per school day in the first week?

答案 : 24 kilograms (120 ÷ 5 school days).

Why did the team draw a sea turtle on the posters?

答案 : To show pupils that plastic waste stays in the sea for a very long time and can harm sea animals.

What does the Green Team do every Friday now?

答案 : It checks the bins.

B3. Find a word in the passage that means the same as the words below. (6 marks)

asked a group of people questions in order to collect information

答案 : surveyed

a notice with a picture that asks people to do something

答案 : poster

B4. Answer in two or three sentences. (6 marks)

Do you think posters are a good way to make pupils throw away less? Give one reason.

答案 : Model: Yes, because pupils see the posters every day and the picture of the turtle makes them think before they buy a plastic bag. A poster is also cheap, so the team can put one in every corridor. (Clear opinion 2 marks, reason 3 marks, support or example 1 mark.)

Section C — Writing (30 marks)

Your principal wants ideas to reduce waste in school. Write a letter of about 80 words to the principal. Give one or two suggestions and explain why they will work.

評分準則：

Content (clear suggestions with reasons)	12
Language (grammar, spelling, vocabulary)	12
Organisation (letter format, linking words, closing)	6

參考範文

Dear Principal Lee,

I am writing to suggest two ways to reduce waste in our school. First, the tuck shop could sell drinks in returnable cups instead of plastic bottles, because bottles are the biggest part of our rubbish. Second, each class could have a paper box for used paper. These changes are simple, and every pupil can take part.

Yours sincerely,

Amy Chan (5A)
