S1 Citizenship, Economics and Society Practice Paper: Self-management and Healthy Living, Interpersonal Relationships and Communication, Resources and Opportunity Cost, Market Demand and Supply, Money Management and Budgeting, Civic Rights and Responsibilities

S1 | Citizenship, Economics and Society | Time: 60 minutes | Total: 100 marks | 24 questions

---

Part 1 Self-management and Healthy Living

Read each question and write your answer.

1. Chan sleeps 9 hours every night. A week has 168 hours. How many hours does he sleep in a week, and what percentage of the week is that (1 decimal place)? [4]

2. Mei-yi exercises 3 times a week, 45 minutes each time. How many minutes per week is that, how many hours, and how many hours in four weeks? [4]

3. Ka-chun uses his phone 2.5 hours a day. How many hours is that in a week, and what percentage of the 168-hour week (1 decimal place)? [4]

4. State what the five letters of SMART stand for when setting a goal, using "revise English for 30 minutes every day" as the example. [4]

Part 2 Interpersonal Relationships and Communication

Read each question and write your answer.

5. The Wong family earns $24,000 a month and spends 30% of it on household expenses. How much is that per month, and how much goes to food if half of it is spent on food? [5]

6. State the three steps of effective communication and give one example of each when getting along with classmates. [4]

7. A friend asks you to copy homework, which you do not want to do. State three ways to refuse peer pressure. [4]

8. A group of five needs 20 hours of work for a project. How many hours per person on average? If two members leave, how many hours per person for the remaining three (1 decimal place)? [4]

Part 3 Resources, Choices and Opportunity Cost

Read each question and write your answer.

9. Man-wa has $200 and may watch a film ($120), buy a book ($150) or save it all. She chooses the film. What is her opportunity cost, and why? [4]

10. State the four factors of production and give one Hong Kong example of each. [4]

11. Chi-ming can earn $60 an hour tutoring. He spends 3 hours revising instead. What is his opportunity cost, and if he values the exam improvement below that amount, should he revise? [5]

12. What is scarcity? State the three basic economic questions every society must answer. [4]

Part 4 Markets, Demand and Supply

Study the table and answer each question.

13. A tuck shop sells sandwiches at $10/$12/$14/$16 with quantity demanded 50/42/34/26 and quantity supplied 10/22/34/46. What are the equilibrium price and quantity? [4]

14. Price rises from $10 to $12 and quantity demanded falls from 50 to 42 units. What is the percentage fall in quantity demanded (1 decimal place)? [4]

15. At a price of $12, is there a shortage or a surplus, by how many units, and will the price tend to rise or fall? [4]

16. State two reasons why demand for sandwiches would increase, and explain how the equilibrium price and quantity would change. [5]

Part 5 Money Management and Budgeting

Read each question and write your answer.

17. Ka-yan gets $800 pocket money a month and saves 25% of it. How much does she save per month and in a year? [4]

18. $3,000 is deposited at 2% simple interest per year for three years. What is the interest, and the total amount? [4]

19. With the same $3,000 at 2% for three years but compounded yearly, what is the total amount (2 decimal places) and how much more interest than simple interest? [5]

20. Ka-po has $800 a month: food $250, transport $120, stationery $80, entertainment $150. What is total spending and the monthly surplus? [4]

Part 6 Civic Rights and Responsibilities

Read each question and write your answer.

21. A school election has 1,200 voters and 780 cast a vote. What is the turnout rate (1 decimal place)? [4]

22. A government has annual revenue of $6,000 billion and spending of $6,400 billion. Is that a surplus or a deficit, and by how much? [4]

23. Match three rights with their responsibilities: the right to education, freedom of expression, and use of public facilities. [4]

24. State the three elements of the rule of law and give one everyday example showing why it matters to society. [4]
